

Excavator quick hitch coupler For Sale

Product Description

Excavator quick coupler, also named as quick hitch coupler, quick hitch, bucket pin grabber can quickly connect various attachments (bucket, hydraulic breaker, plate compactor, log grapple, ripper, etc...) on excavators, which can expand the scope of use of excavators, and can save time and improve working efficiency.

As one of the leading Excavator quick coupler manufacturers in China, JIANGTU has a full range of quick hitch couplers for excavator from 1.5-90 ton. They are suitable for all kinds of brands and models of excavators.

JIANGTU Excavator quick coupler has 3 main types:

> Hydraulic Quick Coupler

Driven by hydraulic system, Jiangtu hydraulic quick coupler makes excavator attachments switch automatically.

Hydraulic Quick Coupler

Safety issues

1. Through safe structure design, Jiangtu quick coupler combines with bucket and other

attachments perfectly.

2. Equipped with check valve on cylinder, attachment will not drop off even when some failures happen like hoses burst.

Features:

1. Fit to 1.5-90 ton machine; Q345B material with advanced mechanical design; Long service life.

2. Driven by hydraulic system, operator can easily switch attachments by turning on the switch in cab.

3. Equipped with check valve on cylinder, attachment will not drop off even when some failures happen like hoses burst.

4. Mechanical safety pin increases its safety.

Main Features

strong safety pin at accurate position

reinforced cylinder with imported oil seals

high-abrasive front tiger mouth design

simirt oil seal

driven by hydraulic system

operator can easily switch attachments by turning on the switch in cab

> **Double locking Hydraulic Quick Coupler**

Developed from traditional first generation quick coupler, double locking hydraulic quick coupler is much safer and has a much longer service life.

Double Locking Hydraulic Quick Coupler

Safety issues

Compared with traditional quick coupler, we add another auto lock on its front hitch ensuing double safety.

- 1.Independent hydraulic system, the front lock still works well even when inner leakage happens.
- 2.The front lock will lock the pin from dropping off when the rear tiger mouth or cylinder rod broken.

Features:

- 1.Fit to 2.5-90 ton machine; Q345B material with advanced mechanical design; Long service life.
- 2.Driven by hydraulic system, operator can easily switch attachments by turning on the switch in cab.
- 3.Equipped with check valve on cylinder, attachment will not drop off even when some failures happen like hoses burst.

Main Features

Safety issues

the rear safety pin

front pin lock

driven by hydraulic system

operator can easily switch attachments by turning on the switch in cab

Q345B material with advanced mechanical design

simirt oil seal

> Mechanical Quick Coupler

Working like bolt and nut, Jiangtu mechanical quick coupler switches attachments manually.

Manual quick coupler

Safety issues

Triple safety: safety pin, index pin, lock block.

Features:

1. Fit to 2.5-18 ton machine; Q345B material with advanced mechanical design; simple structure with lower cost. Easy installation.
2. Long stroke for different pin center distance attachments.
3. By wrenching spanner to switch the attachments.
4. Not suggested for 20 ton and above machine.

Main Features

strong safety pin at accurate position

safety block

the third lock

high-abrasive front tiger mouth design

longer cylinder stroke
(100mm for 20 ton machine)

wrenching spanner to
switch the attachments

You can choose according to your own needs.

excavator attachments

★★★★★

As an equipment operator and business owner I cannot believe the high build quality of these attachments. They are simply the most heavy duty highest quality with no cutting corners I have ever seen. This is the company I want to continue doing business with for all excavator and backhoe attachments. The quality really is first rate and the customer really is foremost. This was my first time working with both an overseas business and Alibaba. I could write a novel as to how well this transaction went and the quality of the products. I am still in shock and can hardly wait to do more business with this company and their products. I will be in future contact and am very very very satisfied. There sales representative Autumn made this transaction seamless and is a credit to the company. I will be looking forward to doing more business on various attachments for heavy equipment sales.

Respectfully Yours

Ben Williams
